Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 November 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claims 1-29 are pending.

Special Note

The change of address was received.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on February 13, 2004, was received and entered of record. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Election/Restrictions

Claims 24-29 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on November 8, 2004.

Applicant's election with traverse of Group I in the reply filed on November 8, 2004 is acknowledged. The traversal is on the ground(s) that they request that it be withdrawn. This is not found persuasive because of reasons of record.

The requirement is still deemed proper and is therefore made FINAL.

Claim Objections

Claim 6 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper

Art Unit: 1651

dependent form, or rewrite the claim(s) in independent form. The claim does not further limit claim 1 in that since claim 1 is drawn to the species the dependent claim can not then be drawn to a broader genus of that species and be capable of further limiting that claim. Claim 6 would be the same as claim 2 if it was limited to the species of claim 1. Claim 6 should be canceled.

Claim 21 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The claim can not depend from itself.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1651

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1-17 and 21-23 are rejected under 35 U.S.C. 102(a, b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Wong et al (cited on PTO-892 Form as a 102(a) reference) or Liu et al (US 6440420), cited on the enclosed PTO-1449 Form.

Claims are drawn to a preparation comprising oleaginous substances extracted from *Ganoderma lucidum*.

Wong et al teach a preparation comprising substances extracted from *Ganoderma lucidum*, note abstract and page 5, column 1, paragraphs 0049-0051.

Liu et al teach a preparation comprising oleaginous substances extracted from *Ganoderma lucidum*.

The claims are considered to be identical to the teachings of the cited references and are therefore, considered to be anticipated by Wong et al or Liu et al. The properties not specifically disclosed by the references, such as tastelessness is considered to be inherent to the properties of the disclosed preparations since they are

Art Unit: 1651

identical they would be tasteless as well. However, in the alternative that there is some different property of the instant preparation and those of the disclosed prior art then the difference is considered to be so slight as to render the preparation obvious over the cited prior art. Thus, the claims are at least rendered prima facie obvious in the absence of convincing and persuasive evidence to the contrary. The instant preparation would have been an obvious modification of those disclosed in the cited prior art and well within the purview of an ordinary artisan to obtain from the disclosed Gandoderm lucidum of the cited prior art.

All claims fail to be patentably distinguishable over the state of the art discussed above and cited on the enclosed PTO-892 and/or PTO-1449. Therefore, the claims are properly rejected.

The remaining references listed on the enclosed PTO-892 and/or PTO-1449 are cited to further show the state of the art.

No claims are allowed.
